

DR HUSSEIN S PATANWALA

Transcend Your Composites - Contemporary anterior composite resin refresher and providing easy innovative solutions to everyday restorative problems

SYNOPSIS

This engaging lecture, led by Dr Hussein S Patanwala (Nasser), will explore contemporary approaches to adhesive and restorative dentistry with a focus on simplicity, predictability, and longevity. Drawing on his extensive clinical and academic experience, Dr Patanwala will present evidence-based strategies for anterior tooth restoration using minimally invasive techniques. Attendees will gain practical insights into optimising bonding protocols, simplifying direct restorative procedures, and enhancing polymerisation for durable outcomes. Beyond the clinical, the lecture will also consider the human and behavioural factors influencing disease progression and how building a stable patient base can reduce stress and improve long-term professional satisfaction.

EVENT DETAILS

DATE	Tuesday 30th September 2025

ABOUT THE SPEAKERS

Dr Hussein S Patanwala (Nasser) - BDS (U.Bham), MSc (KCL), MFGDP UK, MFDS RCS Eng, MJDF RCS Eng, DipRest, CRDP, DipAMID, PGCMEd, FCGDent, FHEA

Nasser was previously Clinical Lecturer of Restorative Dentistry and Head of Form for 5th BDS at the University of Birmingham, School of Dentistry for 16 years. He is one of only a few clinicians to hold memberships to three faculties of the Royal College of Surgeons London. Having spent his early career in Boston working in Oral Maxillofacial Surgery, he also completed his restorative training at the world renowned UCL Eastman Dental Institute and spends most of his time as owner and Clinical Lead of two well respected dental clinics in Birmingham and Sutton Coldfield. He also sits on the undergraduate admissions panel for the University of Birmingham. As well as his work with undergraduates he lectures internationally to post graduate students in adhesive and minimal intervention dentistry. Recently Nasser joined a select group of clinicians graduating with a Masters in Advanced Minimum Intervention Dentistry from King's College London. He is a Key Opinion Leader for some of world's leading dental manufacturers developing their future dental materials.

Nasser is an experienced and popular educator in both undergraduate and post graduate clinical dentistry.

LEARNING OUTCOMES

- To discuss how to make the most of your bonding protocol
- To provide a simplification direct restorative protocol
- To optimise polymerisation
- To provide long-lasting restorations.

COURSE OBJECTIVES

- Restoration of anterior teeth exploring latest evidence-based dentistry.
- Better understand modern restorative concepts using minimally invasive techniques
- Explore the human and clinical factors affect the progression of dental disease and ultimately the longevity of our restorations
- How to build a stable patient base to reduce stress and improve clinical satisfaction
